A N o t c h A b o v e

A person stands in the center of an airport terminal, looking out through a large glass window at a commercial airplane taking off. The terminal has rows of empty metal chairs on either side of the person. The scene is dimly lit, with the primary light source being the bright light from the plane's engines and the sky outside. The person's reflection is visible on the polished floor.

The background shows a large window and studio equipment.
